

RELEASE NOTES

December 2018

Rogue Wave DB Link®
Version 6

Introduction

IMPORTANT: Rogue Wave DB Link 6.2.1 is the last planned release. In next major Rogue Wave Views release, Rogue Wave Views Maps and Rogue Wave Views Data Access will no longer use Rogue Wave DB Link. These modules will instead use an internal implementation to provide database support. An alternate API will replace the Maps and Data Access API that accepts DB Link classes.

These *Release Notes* highlight the changes for the following versions of Rogue Wave DB Link:

- ◆ [DB Link version 6.3 changes](#)
- ◆ [DB Link version 6.2.1 changes](#)
- ◆ [DB Link version 6.2 changes](#)
- ◆ [DB Link version 6.1 changes](#)
- ◆ [DB Link version 6.0 changes](#)

DB Link version 6.3 changes

DB Link 6.3 will be the last release of DB Link. Rogue Wave will continue to support and maintain DB Link 6.3 and 5.8.

DB Link will be replaced by Source Pro DB, which provides improved database support, security, and performance. Contact your Rogue Wave account manager or Rogue Wave support if you have any questions.

DB Link version 6.2.1 changes

Rogue Wave DB Link 6.2.1 is entirely compatible with version 6.2, both in source and binary. You can deploy the Rogue Wave DB Link 6.2.1 libraries beside existing applications and will immediately benefit from the fixes included in this release, without having to recompile your applications.

Please review the changes in the following sections:

- ◆ [New Features](#)
- ◆ [New Ports](#)
- ◆ [Updated Features](#)
- ◆ [Bug Fixes](#)
- ◆ [Removed Features](#)

New Features

No new features have been added for this release.

New Ports

Microsoft Visual Studio 2017 is supported for both 32 and 64-bit architectures.

Updated Features

- ◆ [API Updates](#)
- ◆ [Port Updates](#)
- ◆ [Other Updates](#)

API Updates

The API was not updated for this release.

Port Updates

No ports were updated for this release.

Other Updates

No other updates were performed for this release.

Bug Fixes

No bug fixes have been made for this release.

Removed Features

No features have been removed.

DB Link version 6.2 changes

No additional changes have been implemented in Rogue Wave® DB Link V6.2.

DB Link version 6.1 changes

No additional changes have been implemented in Rogue Wave® DB Link V6.1.

DB Link version 6.0 changes

- ◆ [New Features](#)
- ◆ [Updated Features](#)
- ◆ [Removed Features](#)

New Features

There are no new feature in this release.

Updated Features

With this release, DB Link supports the following new platform:

- ◆ Microsoft Visual Studio 2015: The two ports (`x86_.net2015_14.0` and `x64_.net2015_14.0`) have been added. Note that MySQL is not supported on this platform.

Removed Features

All ports over Solaris 10, SPARC or Intel architecture, with compiler Sun Studio 11 are deprecated. Future releases will only support Solaris 11 with compiler Sun Studio 12.3.

The Microsoft Visual Studio 2010 (`x86_.net2010_10.0` and `x64_.net2010_10.0`) are deprecated.
